

CRM Long/Short Opportunities (Fund) is a long/short equity fund that seeks to provide attractive absolute returns with below market volatility and lower correlation, while allowing stock selection to drive alpha<sup>1</sup> on both sides of the portfolio. The fund seeks to invest in companies, across all market capitalizations and sectors, which are being impacted by change or undertaking transformation. The objective of the fund is to seek long-term capital appreciation. The strategy adheres to the same repeatable, research-driven investment philosophy and process, which has been the hallmark of the Firm's over 45 year history. Cramer Rosenthal McGlynn, LLC ("CRM" or the "Firm") is a registered investment advisor with approximately \$2.7 billion in assets under management.

Expense Ratio (%)

	Gross	Net
CRIHX Institutional Share Class	2.93%	2.82%

The Adviser has a contractual obligation to waive a portion of its fees and to assume certain expenses of the Fund to the extent that the total annual fund operating expenses, excluding taxes, extraordinary expenses, brokerage commissions, interest, dividend and interest expenses related to short sales, and acquired fund fees and expenses, exceed 1.60% of average daily net assets of Institutional Shares. These expense limitations are in effect until November 1, 2022. Prior to that date, the arrangement may be terminated for a class only by vote of the Board of Trustees of the Fund.

<sup>1</sup> **Alpha:** The excess return of an investment relative to the return of a benchmark index is the investment's alpha.

<sup>2</sup> Data as of March 31, 2022.

<sup>3</sup> Data as of March 31, 2022. **Standard Deviation:** The standard deviation is a statistic that measures the dispersion of a dataset relative to its mean and is calculated as the square root of the variance. **Max Drawdown:** is the maximum observed loss from a peak to a trough of a portfolio, before a new peak is attained. Maximum drawdown is an indicator of downside risk over a specified time period. **Beta:** is a measure of the volatility—or systematic risk—of a security or portfolio compared to the market as a whole. **Correlation:** is a statistic that measures the degree to which two variables move in relation to each other.

#### Important Disclosures

**Investors should carefully consider the investment objectives, risks, charges and expenses of the CRM Funds carefully before investing. To request a prospectus with this and other information about the Fund, please call 800.276.2883 or visit [www.crmfunds.com](http://www.crmfunds.com). It should be read carefully before investing.**

The Funds are subject to risks, which are described in the prospectus. In particular, when compared to mutual funds that focus on larger capitalization companies, shares of the Funds generally are more volatile because of the exposure to smaller and mid capitalization companies, which may have more limited product lines and fewer capital resources. Value-based investments are subject to the risk that the broad market may not recognize their intrinsic value.

Short selling may result in greater risk to the Fund because losses are potentially unlimited. When the Fund takes a long position, it purchases the stock outright. When the Fund takes a short position, it sells a stock that it does not own and settles the sale by borrowing the same stock from a lender. To close out the short position, the Fund subsequently buys back the same stock in the market and returns it to the lender. The Fund makes money on a short position if the market price of the stock goes down after the short sale. Conversely, if the price of the stock goes up after the short sale, the Fund will lose money because it will have to pay more to replace the borrowed stock than it received when it sold the stock short. Short selling is a technique that may be considered speculative and involves risk beyond the amount of money invested. Additional information pertaining to investment strategies and risks may be found in the Fund Prospectus, Prospectus Summary and Statement of Additional Information ("SAI"), which are available at [www.crmfunds.com](http://www.crmfunds.com).
